Dichroic acrylic entry sign

Client: Chesapeake Energy Corporation
Completion: May 2007
Scope: 3,821 SF
Cost: Withheld at Owner's Request
Awards: *Interior Design*, "Best of Year," Merit Award, Hospitality/Restaurant

Program Functions:

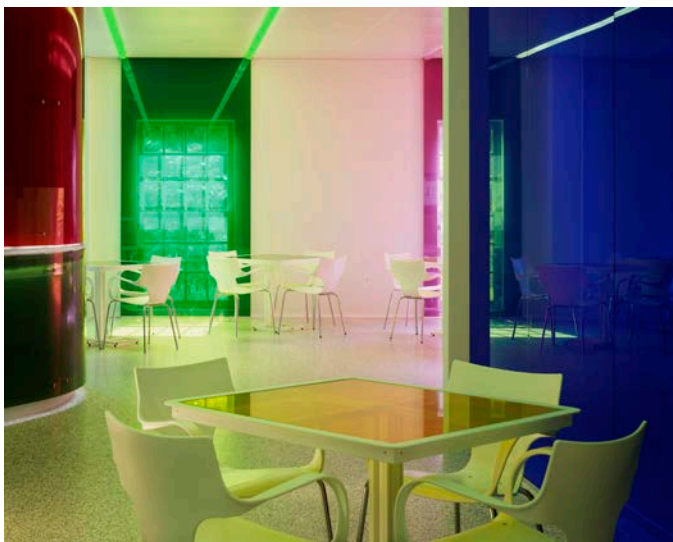

- Provide alternate and complimentary food and atmosphere to the existing Wildcat Restaurant and Conservatory seating area.
- Consider pizza, Mexican food and pasta.
- Modern space
- "Fiesta" concept / image
- High energy
- "Coolest restaurant in town."
- Seating for 100

Architectural Concept: Imagine...

- A space that will support more than two food types... not themed space.
- All the colors of food we eat. . .
- A space that changes with the sun. . .
- Think fresh, crisp, crayons and rainbows.
- A space that is liquid with color as if you are dining inside a watercolor painting. . .
- Think universal space.
- Think color as concept. . .

Looking north at drinks counter. Brick pizza oven is enclosed by red Polygal panels and big plasma monitor lets diners know when their order is ready.

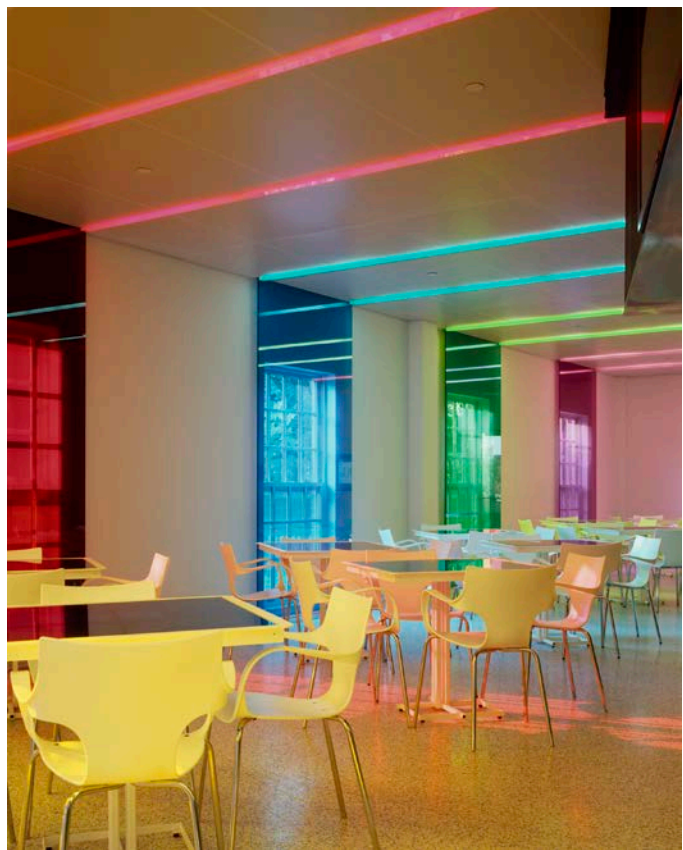

Looking east at Dining Room. Pizza oven is on left with red and green 3 FORM resin panel enclosure and backlit blue glass wall is at right.

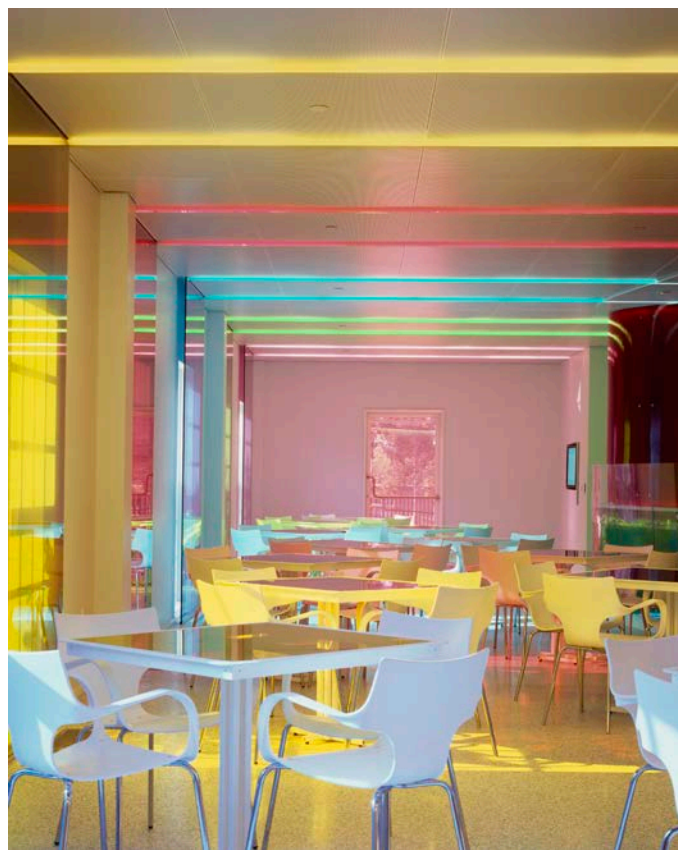

Partial south elevation
